ALBANY 50TH BIRTHDAY CELEBRATION TO START NEXT MONDAY, SEPT. 22

Albany's 50th Anniversary celebration which opens Monday and will continue through the following Sunday commemorates the incorporation of the city in September, 1908. A wide variety of gala events including the swearing in and installation of the Grand Marshal on Monday will continue throughout the week, winding up on Sunday, September 28 with an All-Community Picnic at Memorial Park.

Included in the program will be Old-Timers' exhibits in the city's store windows, the big Gold Coast Shows carnival now open at the north city-limits on San Pablo, the Whiskerino contest and Kangaroo Court, and the special Scrip and special sales by the city's merchants.

While the anniversary program will continue all week, Saturday will really be a big day. The day's program will include many children's activities, with a Little League baseball game between the Albany All Stars and the Berkeley All Stars at Memorial Park in the morning. In the afternoon there will be a Folk Dance festival at Memorial Park, Pageantry and rides and at 1:30 p.m. a big parade which will follow a route on Solano, Kains, Brighton and San Pablo Avenues. A big street dance is scheduled to start Saturday night at 9 o'clock, with Solano Avenue blocked off between Kains and Adams, with a dance band assigned to the sections on each side of San Pablo Avenue.

On Sunday there will be a big All-Community picnic at Memorial Park, the Merchants awards, the Whiskerino awards at Memorial Park and other events to make the final day one full of fun and frolic.

Chamber Chatter

By IRENE GROVE

Here it is, the very eve of our city's fiftieth anniversary with all the activities planned for next week's celebration.

The lines from a poem come to our attention which seem particularly appropriate at this time . . "Cities are what men make them, what men demand them they shall be." Our city is the place we want to live and do business in because of the spirit fifty years ago that saw the leading citizens including the first mayor, taking time from their own businesses, rolling up their sleeves and together laying the first sidewalks on San Pablo . . . today it is that same spirit that is the cooperation that is making possible our celebration, the street decorations, the script promotion, the paraed and all the other activities.

So many clever and new store decorations are going up it is impossible to list them all . . . but do notice the scenes on the windows of MacGregor Homes, Tri City Electric and Richard Jewelers . . . the old fire engine in front of Howard Simca, the fire fighting rig in front of Flowerland Nursery and the old fashioned apothecary at Cortese Drugs. There is another result of a lynching at Albany Sportsman Garage. They all show imagination and add color to our birthday party.

Albany has been invited to take part in our neighboring city, Newark's third anniversary Saturday, September 20. If an old car and some costumed riders can be found, we have a position in their parade and a chance to advertise our celebration next week.

Reports from the costume shops are that orders are being filled for many Albany citizens so 1908 and western wear should soon appear on our streets.

DON'T FORGET to ask for your GOLDEN ANNIVERSARY SCRIPT from your merchants . . ten dollars of script brings you a bonus.

United Crusade Drive begins September 23 . . . don't forget to give till it helps. Commerce and Industry Division is organized now with leading men in each industry handling the drive for their business.

The Jaycees are busy with a stag barbecue planned at Sequoia Lodge in Montclair, October 2nd . . . float in Berkeley's Parade of Lights and the street dance for our celebration.

Latest publication received by your Chamber of Commerce office is entitled "The California Freeway" . . . especially pertinent to study with the Joint Interim Committee on Highway Problems meeting coming up for Alameda County and cities in San Francisco, October 3.

More next week . . . when we will all be saying "Happy Birthday" to our city.

"Yours truly" . . . Your Chamber of Commerce Manager.

MRS. LEWIS M. HOWELL (left) again will head Albany's participation in the countywide Christmas Seal Sale of the Alameda County Tuberculosis and Health Association. Mrs. Alvin W. Langfield (right) of Berkeley is county chairman for the fund drive, only public appeal made for support of work of the TB Association, an independent, voluntary health agency which has been serving Alameda County continuously since 1909.

Mrs. L. M. Howell Again Chairman Of Seal Campaign

Re-appointment of Mrs. Lewis M. Howell of 1079 Peralta, wife of Albany's mayor, as chairman of the annual Christmas Seal sale of the Alameda County Tuberculosis and Health Association has been announced by Dr. J. Hallam Cope, association president.

Mrs. Howell has headed Albany's participation in the countywide sale, only public appeal which the TB Association makes for support of its work, for several years.

She will be one of a corps of community chairmen serving with Mrs. Alvin W. Langfield of Berkeley, who was appointed county chairman for the holiday fund raising effort.

An independent, voluntary health agency, the TB Association will open its seal sale in mid-November. Proceeds will support year-round programs of scientific research, TB case-finding, and public and professional education.

Ruth Association To Meet Sept. 20

The Loretta Green '55 Ruth Association will hold a meeting at the home of Loretta Green, 805 East Alamos, Fresno, California, on Saturday, September 20.

Rob't. Kirkwood To Speak At Rotary Tuesday

Robert Kirkwood, Controller for the State of California, will be the speaker at next Tuesday's luncheon of the Albany Rotary Club. He will be introduced by Robert J. Foley, Albany City Attorney, while the president of the club, Herb Foley, will preside.

Kirkwood is an elected official and has served as State Controller for the last five and one-half years. He has been a leader in state and local government, and served in the state legislature for six years. In his position as state controller he makes an independent check of all finances of state government. He is a graduate of Stanford and of the Harvard Law School.

Last Tuesday Stan McCaffrey of the University of California gave an interesting talk on "The Future of American Youth Our Responsibility."

Last Sunday representatives of the 51 Rotary Clubs in District 516, of which Albany is one, gathered at the El Nido restaurant near Lafayette for an all-day session under the direction of William Palmer, District Governor. Approximately 120 Rotarians attended. Representing Albany were President Herb Foley, George Hollfelder, Dr. Gunnar Larson, and Hal Weller.

California Dads' Council To Meet

Leaders in the California Council of Dads Clubs will meet at La Honda, Saturday and Sunday, September 20-21, for the annual leaders training conference. All officers and members are expected to take advantage of this opportunity to receive the training and exchange of information that will enable their clubs to have an active and successful year.

The state officers are working to bring more values into this conference with a Sunday afternoon round table discussion, where successful past activities may be more elaborately presented, and new propects found for the future. A considerable portion of the program will be devoted to recreation and athletic activities.

CARNIVAL WILL GIVE CITY PART OF 'TAKE'

Several protests were offered at Monday night's council meeting over the granting of a carnival permit in connection with the city's 50th Anniversary program. It was claimed that the city had an ordinance completely outlawing carnivals, but this was denied by City Attorney Foley who explained that the carnival ordinance requiring a prohibitive fee of $100 per day and strict police and health requirements did not apply in this case. The ordinance, he said, specifically exempted carnivals or similar shows from paying the stated fee when sponsored by the city. He said, however, that the other requirements would be in full effect.

Chief of Police Ralph Jensen, who is general chairman of the anniversary program, told the council he had thoroughly investigated the carnival which opened up here this week, and had consulted with police and civic authorities in cities where this carnival had operated recently, and that it had been given a clean bill of health. He also stated that the strict rules regarding policing and health department rules would be strictly enforced.

Ample insurance amounting to $100,000 and $300,000 is being required and the city will be held safe from any damage suits or other obligations. The city is also to receive a substantial cut on the intake by the carnival and the Chief said he hoped the percentage would go a long way toward paying expenses of the anniversary program. Any surplus over and above expense of the celebration would be turned over to the city.

The carnival has been set up adjoining Cerrito Creek at the north city limits by an agreement with the Albert Lovett Company which promoted the Plaza and Shopping Center, and which controls the property between the Kains Avenue extension and San Pablo Avenue.

The council also discussed the growing problem of the city dump. The dump is located on a narrow strip reaching out into the bay and City Engineer McAuley says the area is not sufficient for such a cover and fill operation as the city is attempting to carry on.

Mayor Howell declared that something would have to be done about this dump situation immediately and announced that the council would meet later in the week with dump operator William Kenney and the city engineer in an effort to find a solution to the problem.

The mayor also announced that the Albany Hill Association is sponsoring a public meeting Thursday night, September 18 at 8 p.m. in the Cornell School cafeteria to discuss the city's proposed $590,000 bond issue to finance building of new fire and police buildings and a new city hall. He said the architects' miniatures of the new buildings would be on display and that he himself, Chief Jensen and Assistant Fire Chief Gerald Browne would be at the meeting to explain details of the plans.

CHRISTIAN SCIENCE

The truth that man made in he spiritual image and likeness of God has dominion over sin, sickness, and limitation will be brought out at Christian Science services Sunday at 533 San Pablo Avenue, Albany.

John's account of the walking on the sea by Christ Jesus (John 6: 16-21) is included in the Scriptural selections to be read in the Lesson-Sermon entitled "Matter."

A correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy declares: "In proportion as matter loses to human sense all entity as man, in that proportion does man become its master. He enters into a diviner sense of the facts, and comprehends the theology of Jesus as demonstrated in healing the sick, raising the dead, and walking over the wave" (369: 5-10).

The Golden Text is from Leviticus: "Turn ye not unto idols, nor make to yourselves molten gods:: I am the Lord your God" (19-4).

HOW TO DRIVE

A tip from the AAA's driving guide for adults.

AT 50 MILES PER HOUR

while your foot does this — your car does this!

No matter how alert you may be, no matter how good the condition of your car may be, you can't stop on a dime. At 50 miles per hour, you would flash past more than 800 dimes placed side-by-side, or 55 feet before you could even get your foot on the brake.

The average person takes about three-fourths of a second to step on the brake after he sights danger. This is called reaction time, and it's a serious matter to a driver. Reaction time becomes measurably slower as you grow older, or if your physical condition is not up to par, or if you have had a drink or become tired. Only when you know how to adjust your speed to suit all conditions can you really say you know HOW TO DRIVE. ©AAA

★ LETTERS TO THE EDITOR ★

Editor, Albany Times
Albany, California
Dear Sir:

As a resident of this community and a member of the Sierra Club I feel it my duty to inform our local newspaper of a recent newsworthy effort. It is hoped that some space can be devoted to the subsequent facts written here.

On Saturday, August 16, a group of Sierra Club volunteers under the dedicated leadership of Fred and Ann Eissler of Tuolumne Meadows initiated a new kind of High Sierra trip. Starting at Onion Valley outside of Independence, California, Highway 395, the group hiked the Kearsarge Pass trail stopping along the way at Gilbert, Matlock, Bullfrog, Kearsarge, and Charlotte Lakes. Representing Albany in this group was Herbert Rubin. At each of the places mentioned the Sierra Club party as well as enthusiastic friends recruited along the way burned, smashed and sacked tin cans, glass and other debris left by campers of this and past seasons. All told a total of 151 sacks of crushed cans and other material averaging 40 pounds per sack were collected and left at trail's side to be packed out by burro and mule. A few posters were tacked along the way at appropriate places to explain the nature and results of the volunteer work party to future campers.

The essential point of all this is to introduce a new awareness of conservation and wilderness protection of which the tin can campaign is but an initial necessary step. For its own part the Sierra Club Board of Directors recently adopted an official ruling which holds that if you can pack the containers in full, you can pack them out empty. With an ever increasing traffic of campers, packers, fishermen, hunters, and others in our national forests, parks and wilderness areas it is becoming more important that each and every individual, organization and pack train outfit make it their duty to pack out their debris from these areas. Controlled tests show that even burned, crushed and buried tin cans survive for decades; glass and foil are nearly indestructible.

In this initial effort credit and thanks are gratefully extended to the Sierra Club Outings Committee that provided food and certain other supplies as well as Mr. Ike Livermore who financed the packing of the party's commissary and the removal of the sacks of cans.

Yours truly,
HERBERT RUBIN

Albany Library Lists Some "Best Sellers" Of Fifty Years Ago

Favored books of a half century ago have been listed by the staff of the Albany Public Library. Among "Best Sellers" were: "Mr. Crewe's Career," by W. Churchill; "The Barrier," by Rex Beach; "The Trail of the Lonesome Pine," by John Fox Jr.; the "Line of the Mask," by McGrath; "The Shuttle," by Frances Hodgson Burnett; "Peter," by F. H. Smith; "Lewis Rand," by Mary Johnston; "The Black Bag," by Lewis Joseph Vance; "Man From Broadway," by George Barr McCutcheon, and ""The Weavers," by Gilbert Parker.

The first printing of "The Trail of the Lonesome Pine" was sold out within a few months. One of the best known popular songs used the book's title, a song writing habit that has persisted. Frances Hodgson Burnett was still a best seller, 22 years after her greatest hit, "Little Lord Fauntleroy."

In December, 1913, a branch library was established in Albany. It was in a room on "Main Street," one block west of the present beautiful building.

Quoting from "The Fourth Annual Report of the Alameda County Library" — "The people of the community (Albany) rented a room and furnished the tables, chairs and bookcases. The room is very attractive, the attendance and circulation satisfactory. Mrs. E. S. Hamilton is the efficient librarian. Her knowledge of people and books makes her a valuable addition to the county staff. The town trustees pay $5 a month towards buying books, and show in many ways their interest in the new library."

Author To Speak At 'Y' Luncheon

The course at Emery is made possible by the loan to the school of a new Chevrolet by East Bay Chevrolet Company of Albany, and equipped with AAA dual controls at cost by the Auto Association. Thomas J. Conlan, Emery principal, announces that Joseph Lovisone is instructor for the class.

Husing Will Head Lions' Campaign

WHAT'S DOING

These days there's no telling *where* you'll find transistors, those mighty mites developed by phone people. They've been whirling through space inside U.S. satellites, helping to radio information back to earth. And, down here, they're helping to bring you good phone service. The special transistor held by the phone man above, for instance, helps speed out-of-town calls. For it automatically picks the fastest voice paths to the town you're calling. On top of that, it enables more and more folks to dial their own long distance calls. Transistors are among a whole host of tiny, space-saving parts we use to bring better service to you.

Thirty Years With Pacific Telephone

Ed Hartley, local Telephone man, celebrates his 30th year with Pacific Telephone. Ed, raised and educater in the East Bay, began his career in 1928 as a central office repairman and progressed to his present position of Supervising Wire Chief for the Oakland-Berkeley district. Ed's leadership ability and generosity are well known among local civic organizations. These include Boy Scouts, Broadmoor Men's Club and the Chamber of Commerce.

Congratulations, Ed, and continued success.

Don Mulford Opens Campaign For Re-election to Post

Assemblyman Don Mulford of the 18th District, which includes Albany, last week started off his campaign for re-election at the November election. In doing so he pledged that he will continue to represent the residents of the district to the best of his ability, and to justify the responsibility which they have placed upon him.

Mrs. Jerome Blank, chairman of the Albany committee supporting Mulford, paid tribute to his "sincerity, integrity, and his outstanding awareness of the problems of his district."

She pointed out Mulford's record of accomplishments during his short service in the Legislature. ""They include," she said "a successful fight for additional state narcotics enforcement officers, legislation to protect veterans" benefits, and the successful act to obtain state-wide development of small craft harbors and facilities."

Albany Harbor Board to Consult With Don Mulford

Assemblyman Don Mulford today announced that he was planning to meet with the newly appointed Small Craft Harbor Board of the City of Albany to discuss plans for obtaining money to initiate studies for the harbor.

Mulford was responsible for obtaining a five million dollar loan at the recently concluded session of the State Legislature for the purpose of small craft harbor development. These funds are a loan from the investment fund and will not cost the taxpayerss any money. The city of Berkeley on August 28 received ten thousand dollars from this fund to begin studies for the development of the small craft harbor. Mulford, who has been closely identified with small craft harbors throughout the state, again urged support of Proposition 4, which will provide 50 million dollars of bonds for the San Francisco Harbor area and ten million dollars additional bonds for the development of small craft harbors.

Bay Pollution May Need State Action — Mulford

Assemblyman Don Mulford today indicated that a review of the bay pollution problem insofar as it pertains to the East Bay cities, particularly Berkeley and Albany, may be in order. Last week disagreement between the city of Albany and the Stege Sanitary District was partially resolved when he attended a meeting with officials of the city of Albany and the Stege Sanitary District to review the disposal of raw sewage into the bay.

Stege Sanitary District has indicated that this will not occur but it was pointed out that the San Francisco Bay Regional Water Pollution Control Board appears not to have sufficient authority to control this vital measure. Mulford pointed that a legislative sub-com has been examining this pr during the last year. "The cient use of the bay for tional and industrial pur must be kept in mind if w to obtain maximum benef the people of the Bay a Mulford concluded.

STRENGTHEN AMERICA'S PEACE POWER

Photograph by Harold Halma

Our youngsters are learning the A B C's of peace for the future: How to get along with each other. How to give and take. How to respect each other's rights as individuals.

But right now it's *our* job to keep the peace in a troubled world. And peace costs money. Money for strength to keep the peace. Money for science and education to help make peace lasting. Money saved by individuals.

Your Savings Bonds, as a direct investment in your country make you a Partner in strengthening America's Peace Power.

The Bonds you buy will earn money for you. But the most important thing they earn is *peace*.

Think it over. Are you buying as many Bonds as you *might*?
